What interests you about music videos? What would your specialty be, such as, “I would direct them” or “I am interested in the business/music marketing side of music videos” or “I am interested in how gender is performed and presented in them.” Why?

What kinds of music videos do you like? What are two favorites?

What kinds of music or musicians/groups do you like?

What are your goals for the class?

What kind of art/media interests you?

What are your career objectives (as far as you know)?

Do you collect anything, if so what?
